
Specifications

- Fits table thicknesses between .75”-1.50”
- Available in Black or Clear Brushed Aluminum.
- Recommended table cutout: 2.1875” x 2.8125”

DATA PORTAL

The Data Portal is compact in design but large in capability. The Data Portal family of products can house a wide variety connectivity including data, A/V, USB, and XLR options. A lift open top allows the connectors to be covered and discretely become part of the furniture when not in use. Constructed of high end anodized aluminum, these products are an elegant way to satisfy your data power requirements.

Ordering information

Part number	Product Configuration
Brushed Black Aluminum	
DP-BL-S1-73-73	2 RJ45 Cat 5e Inline
DP-BL-S2-L-C51	1 Mini-Stereo Inline, 1 15 Pin HD VGA
DP-BL-S4-25	4 Pin XLR
DP-BL-S4-13	3 Pin XLR
DP-BL-S5-10	S Video Inline
