where design meets technologysm

iGroup® Tables

Interactive Origami at play!

The iGroup® element is triangular with a curve on the user's side. Made in mirror image left and right, iGroup elements assemble to form interactive shapes.

Get creative with your classroom planning. Change up the arrangement for different group settings. Experiment with different shapes to find out what works best for your students and their learning styles.

iGroup Element dimensions:
42" w x 30" d x 28" h
