

infinity

LED Task Light

Humanscale's Infinity LED task light embodies performance in a sleek, timeless design. Equipped with constant torque 'Forever Hinges' for strength and stability in any position, Infinity's large-array, multi-chip LED provides long-lasting, high-quality light — casting just one single shadow. In line with the Humanscale philosophy of doing more with less, Infinity is designed from a functional perspective to create a task light that is elegant, enduring and globally appealing.

Design Story

As modern workspaces evolve, they require versatile, highly adjustable and highly durable products to suit the needs of each individual user. In response, Humanscale Design Studio created Infinity, which borrows an advanced hinging technique — inspired by laptop computers — to maintain fluid movement and effortless positioning, even after a decade of use. Infinity offers a wide range of features that enhance the user experience and ergonomic benefits — all packaged within a timeless, beautiful and minimal aesthetic that complements a wide variety of interiors and spaces.

Features

- Single LED light source casts just one shadow
- Large-array multi-chip LED technology provides highest efficiency and quality light to achieve 1500 lux (150 foot-candle) illumination
- Constant torque 'Forever Hinges' ensure stability and eliminate the need for adjustments, even after a decade of use
- User control indicator lights fade after adjustment to reduce visual clutter
- PIR occupancy sensor senses body heat to automatically shut off when no one is present
- Dimming feature offers nine levels of brightness and remembers preferred user settings
- Offers a variety of mounting and base options
- Nightlight feature provides an ultra-low light setting with occupancy sensor disabled
- Exterior color provided by durable film and polished natural aluminum
- User interface utilizes the same touch technology as smart phones for easy and intuitive use

Environmental Story

- Infinity is 90% composed of highly recyclable aluminum and iron.
- Over 50% of the product is comprised of recycled content.
- PIR occupancy sensor automatically shuts the light off when no movement is detected — further helping to conserve energy and costs.

Quick Specifications

1500 lux (150 foot-candle) illumination
Power consumption: 9 watts
Lifespan: Up to 50,000 hours
3000 K (warm white) light, 90 Color Rendering Index (CRI)
Configurable to all spaces with an option of desktop base, clamp, wall mount, slatwall mount or floor stand
Finish options: Ash Black, Linen White, Slate Blue (all semi-matte)
Industry leading 10-year 24/7 warranty
