Installation Instructions

1. Cutout table as required (see Figure 1 & Cutout Sizes)
2. Center OASIS™ UT on cutout from below and mount with screws as shown, not provided.
3. OASIS™ Inserts may have been installed at the factory but may be repositioned in the field if desired. To reposition OASIS™ Inserts remove thumb nuts & washers from rear and reposition as needed (see Figure 2). Note: Disconnecting ground tether may be required.
4. Connect all power & data cabling as needed and check for proper operation.
5. Attach Outer Pan (optional) to underside of table if desired.
