SAFE*DESK*™

ENCLAVE™ PRIVACY PLUS

Social Distancing Partitions

Provide protection and comply with social distancing standards with our Enclave™ Privacy Plus wing panels. Privacy Plus panels not only cover the length of your countertop or desk, they extend 8 inches past the surface for extra barrier protection.

MergeWorks' Privacy Plus divider wing panels can be easily added to existing furniture using a variety of removable and premanent mounting options. Manufactured in several materials that can be cleaned and disinfected, and quick to install, Privacy Plus Wings are an effective solution to safeguard everyone in your business.
- Panels extend 8 inches past desk or countertop surfaces for added barrier protection
- Available in several widths and heights for maximum coverage
- Available in materials that can be cleaned and disinfected including Acrylic, Acoustic EchoScape™ and Fabric
- EchoScape™ 3/4" (18mm), our 0.9 NRC rated acoustic solution, effectively controls noise disruptions by absorbing sound
- Permanent and removeable mounting options available
- Made in the USA
- Customization available – special materials, sizes, shapes and mounting options

							SBM	Bench Mount (silver)
							IM	Invisible Mount

The number of mount pieces included with each panel depends on panel width. Panels up to 54" wide will come with two mount pieces. Panels 60" or wider will come with three mount pieces. SMARTdesks® recommends three mount pieces for all custom widths greater than 54". Please contact us if you require custom panel widths.

Edge clamps:
Edge clamps are designed to support panels on the outside edges of the table.

• Two edge clamps (knob or lever) are included with each panel up to 54".
• Three edge clamps (knob or lever) are included with each panel 60" or wider.

Although you could use the Middle/Double Middle Clamps to put a panel on the left or right edge of the table, it is more stable to use the Edge Clamp.

Freestanding mounts:
Freestanding mounts sit atop the work surface and can be moved freely.

• Two freestanding mounts are included with each panel up to 54".
• Two freestanding mounts and one center pad are included with each panel 60" or wider.

Middle clamps:
Middle clamps are designed to support panels that run perpendicular to the front edge of the desk. Middle clamps can be ordered as single units (includes one middle clamp and one center pad), or double units (includes two middle clamps and

center pad if panel is 60" or wider).

• One middle clamp (knob or lever, single) and one center pad are included with each panel up to 36" wide.
• Two middle clamps (lever, double) are included with each panel up to 54" wide.
• Two middle clamps (lever, double) and one center pad are included with each panel 60" or wider.

Top mounts:
Top mounts are designed to support panels that run either parallel or perpendicular to the edge of the desk.

• Two top mounts are included with each panel up to 54".
• Three top mounts are included with each panel 60" or wider.

Double Middle Clamp - Lever Silver	Up to 54" wide panel, 2 clamps	60" and larger panel, 2 clamps and 1 support foot

SAFE *DESK*™

Top Mount (TM)

- Use for permanent mounting
- Install anywhere on the desk
- Work on all thickness tops
- Clamp position on panel is adjustable
- Kits include 2 or 3 Top Mounts depending on the width of the desk divider

Top Mount (STM)

Top Mount (BTM)

Edge Clamp - Knob (CEK)

- Fast & easy installation and relocation
- Mount along the edge of work surface
- Clamp fits 3/4" to 2" thick tops
- No screwing or drilling into work surface required
- Clamp position on panel is adjustable
- Kits include 2 or 3 Clamps depending on the width of the desk divider

Edge Clamp - Knob (SCEK)

Edge Clamp - Knob (BCEK)

Edge Clamp - Lever (CEL)

- Patented Lever allows for easy installation with no low hanging knob
- Fast & easy installation and relocation
- Mount along the edge of work surface
- Clamp fits 5/8" to 2" thick tops
- No screwing or drilling into work surface required
- Clamp position on panel is adjustable
- Kits include 2 or 3 Clamps depending on the width of the desk divider

*Patented

Edge Clamp - Lever (SCEL)

Edge Clamp - Lever (BCEL)

Edge Clamp - Hex (CEH) (Low Profile)

- Fast & easy installation and relocation
- Mount along the edge of work surface
- Clamp fits 1.1" to 1.22" thick tops
- No screwing or drilling into work surface required
- Clamp position on panel is adjustable
- Kits include 2 or 3 Clamps depending on the width of the desk divider
- Use when minimum free space is available on underside of work surface

Edge Clamp - Hex (SCEH)

Middle Clamp - Single (CMS)

- Patented Lever allows for easy installation with no low hanging knob
- Fast & easy installation and relocation
- Mount perpendicular to edge of work surface
- Clamp fits 5/8" to 2" thick tops
- No screwing or drilling into work surface required
- Only one clamp required to secure a desk divider

Patented

Middle Clamp - Single (SCMS)

Middle Clamp - Double (CMD)

- Patented Lever allows for easy installation with no low hanging knob
- Fast & easy installation and relocation
- Mount perpendicular to edge of work surface
- Clamp fits 5/8" to 2" thick tops
- No screwing or drilling into work surface required
- Two clamps for use with larger dividers
- A center Pad will be included on units 54" and wider

Patented

Middle Clamp - Double (SCMD)   Center Pad (54" and wider)
Middle Clamp - Knob (CMKS)

- Fast & easy installation and relocation
- Mount perpendicular to edge of work surface
- Clamp fits 1.1" to 1.22" thick tops
- No screwing or drilling into work surface
- Only one clamp required to secure panel to work surface
- Kit includes 1 middle clamp with knob and one or two metal resting plates depending on width of panel

Middle Clamp - Knob (SCMKS)

Free Standing Foot (FS)

- Fast & easy installation and relocation
- Stands freely on top of work surface
- Clamp position on panel is adjustable
- No screwing or drilling into work surface required
- A center Pad will be included on units 54" and wider

Free Standing (SFS)   Center Pad (54" and wider)
Bench Mount (BM)

- Use for permanent mounting
- Fits between back to back workstations with a minimum gap of 2.25"
- Clamp position on panel is adjustable
- Can be used on all thickness tops
- Kit includes 2 to 3 Bench Mounts depending on width of the panel

Bench Mount (SBM)
