CUSTOMIZATION**

BRINGING TECHNOLOGY TO THE FOREFRONT OF MEETING SPACES

The sophisticated 15-inch Oasis™ Mini supplies power, data, and charging technology where it's needed most. Available as an in-surface or under table (UT) unit, seamless productivity-enhancing technology and critical cable management are accessible at your fingertips. Customizable power inserts accommodate even the most unique preferences, creating a collab-centric environment that is both aesthetically pleasing and productive.

Mounting capabilities on following page...

In-Surface/Bezel (Featured to the right) -

- Easily integrate Oasis™ Mini tabletop unit directly into the surface cutout. This model comes standardly equipped with a clever retractable lid that keeps wires and cables organized and out of sight. When closed, the unit sits nearly flush to the surface for an overall aesthetic finish.

Under Table (UT) (Featured to the left) -

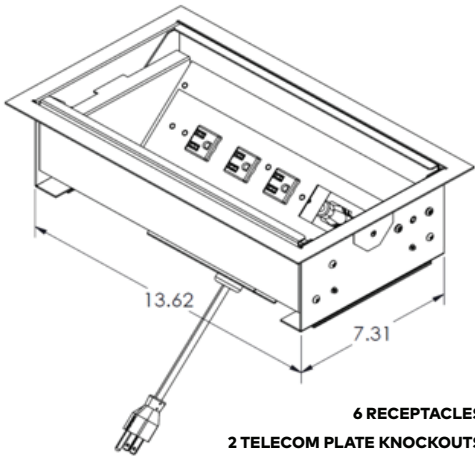

- Oasis™ Mini UT secures to the underside of the application for a completely recessed finish. When paired with the optional Trim & Lid Pivot Kits, the set of frosted glass lids flip open and closed; providing easy access to integrated technology with additional cable management capabilities.

Looking for a customized finish? Fabricate your own lid (paired with the Trim Kit) to match your application for a flawless and cohesive aesthetic.

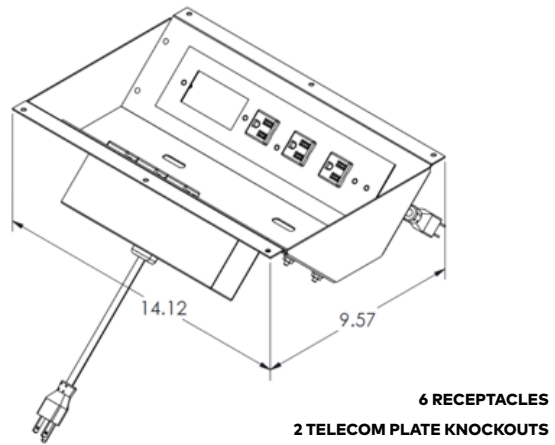

Note: Custom lids are not provided
