iLid® Multi-Use Computer Desk

An iLid® multi-use computer desk is the perfect centerpiece for your home office. Now you can work at home, optimizing the work space when desktop space is more important. Your computer display opens up like a laptop whenever you need it, and the space-saving keyboard tray leaves more table top ready for books and notes. Computer shelf keeps small form factor CPU off of the floor.

The hutch gives organized storage for references at the ready. A cable pass-through for speaker wires is included. Ask for the LED lighting option to save even more space.

- Desk Dimensions: 42" x 29" x 30"
- Keyboard | Mouse platform 26" x 8"
- iLid® monitor mount supports VESA compliant displays up to 24" diagonal.
- Lockable carpet casters
- Optional Hutch Dimensions: 39.5" x 11.75" x 21"
- Shelf height above desktop: 14"
- Optional LED light for Hutch
